HYDRAID ⚡

The Innovative Formula

Super Hydrad is a German formulation that has been designed with the idea to impart an innovative solution to address the issues, hassles and the predicament caused by dehydration. The innovative formula with the appropriate balance of electrolytes acts as the best solution for quick, efficient and effective nutrient intake.

*Stay Hydrated with
Super Hydrad*

These are the unique features of super hydrad.
German Formula & Enhanced Flavors, Heightened taste, Formulated to cater workers in hot environment to stay hydrated, Natural sweeteners added in appropriate levels to suite all labors.
No artificial color.

Do Your Employees Really **Need Electrolytes**?

Our bodies are constantly producing heat. Whether it's the metabolism in our bodies working to break down food or the electrical impulses firing on all human cylinders with the amount of physical work we do, we're constantly generating heat.

As a result, keeping cool on hot days can prove to be a challenge. Often times, workers don't realize they're dehydrated or facing heat stress until it's too late. Electrolytes play a big role in our health.

Lack of electrolytes may cause : Heat Exhaustion Heat Stress
 Heatstroke Fatigue

Let's take a look at **5 Key Electrolytes**.

Na Sodium-
Sodium help maintain fluid balance through osmosis.

Ca Calcium -
As you might know, calcium is a key player in bone development.

Cl Chloride -
Chloride helps regulate the balance of acid and alkali levels in our blood.

K Potassium -
Potassium plays a part in how nerves transmit signals and muscles contract.

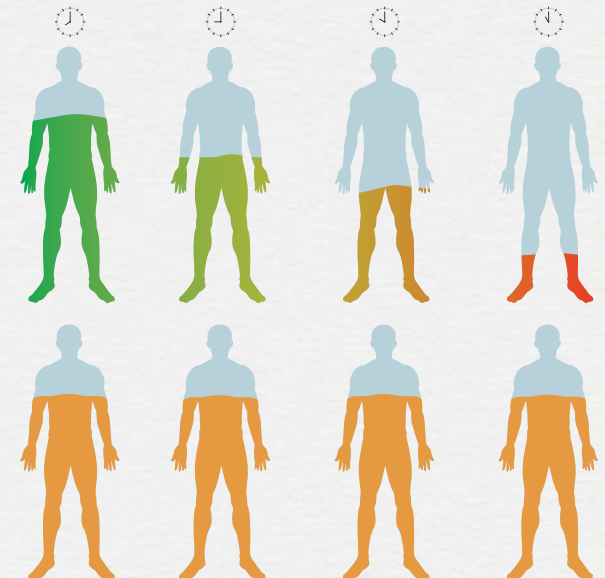

Mg Magnesium -
Helps muscle & nerve function, regulating blood pressure, & immune system.

The benefits of **Electrolytes**

Electrolytes are involved in many essential processes in your body.

- 💧 Maintain, control and regulate fluid balance.
- 💧 Significant role in blood pressure regulation.
- 💧 Far reaching effects on fatigue.
- 💧 Influential factors in muscle and nerve function.

 Electrolyte Level in body using normal water.
 Electrolyte top up level by Super hydraid drink.

The Flavors

Your workers will love these flavors for sure.

Orange

Lemon

Convenient Sizes

10.5g Makes 250 mL

21g Makes 500 mL

840g Makes 20 Liter
