Electrolyte Replacement Solution

Based on
**WHO
FORMULA**

سوبر ليت

**Super
Lyte**

The best Hydration Drink

Super Lyte is a well formulated hypotonic fluid and electrolyte replacement solution. It effectively replaces the electrolytes lost due to sweating to prevent the effect of dehydration on health and performance. Super Lyte solutions have a low solute concentration that promotes faster absorption than plain water.

The scientifically tested formula makes Super Lyte a high performance electrolyte replacement solution for the prevention of effects of dehydration and electrolyte imbalance.

Stay Hydrated

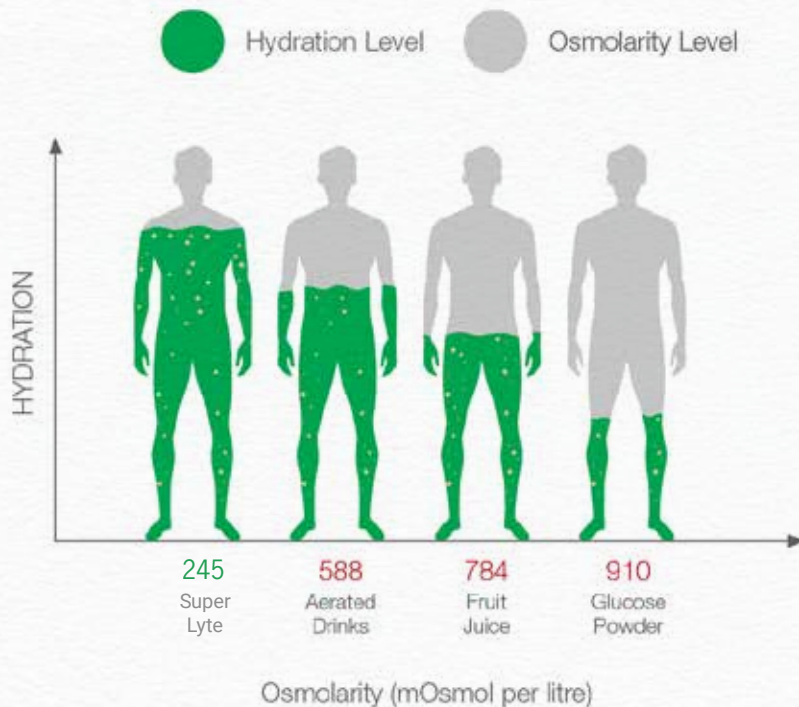

The **UNIQUE FEATURES** of Superlyte ?

- ◆ Key electrolytes to prevent electrolyte imbalance.
- ◆ Hypotonic solution to ensure rapid hydration.
- ◆ Three Delicious flavours - Orange, Pineapple & Lemon.
- ◆ Top Quality Sweetening agent.
- ◆ Easily stored and moisture protecting packaging.
- ◆ No Artificial colour added.
- ◆ Safe to Consume throughout the day over a prolonged period.

Do Your Employees Really **Need Electrolytes**?

Our body is constantly producing heat. Whether it's the metabolism in our bodies working to break down food or the electrical impulses firing on all human cylinders with the amount of physical work we do, we're constantly generating heat. As a result, keeping cool on hot days can prove to be a challenge. Often times, workers don't realize they're dehydrated or facing heat stress until it's too late. Electrolytes play a big role in our health.

Lack of electrolytes may cause : ■ Heat Stroke ■ Muscle Cramps
■ Seizure ■ Dizziness

Let's take a look at **4 key electrolytes.**

Sodium

Sodium help maintain fluid balance through osmosis.

Calcium

As you might know, calcium is a key player in bone development.

Chloride

Chloride helps regulate the balance of acid and alkali levels in our blood.

Potassium

Potassium plays a part in how nerves transmit signals and muscles contract.

The benefits of **Electrolytes**

Electrolytes are involved in many essential processes in your body.

- 💧 Play a role in conducting nervous impulses
- 💧 Keeping you hydrated
- 💧 Controlling your fluid balance.
- 💧 Regulating your blood pressure.
- 💧 Helping your muscles contract – including your heart.
- 💧 Maintaining the correct acidity of your blood (pH).

The Flavours

Your workers will love these flavours for sure.

Pineapple

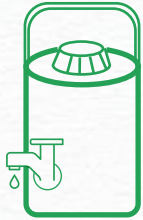

Orange

Lemon

Convenient Sizes

218g

Makes 10 Litres

21.8g

Makes 1 Litres

- ✓ WHO-GMP Certified
- ✓ Dubai Municipality Approved
- ✓ Approved & Tested From Central Laboratory Dubai
- ✓ Approved & Tested from QCC AD
- ✓ FSSAI & FDA Certified.
- ✓ Accredited from SGS & NABL Labs.

Complaint With Regulations :

- ✓ UAE.5 192:2019,
- ✓ UAE.5 CA (193:2013)
